

Cardia Stent

Perfect fit for the area around the Cardia

Stent migration or a stent distal end reaching far into the stomach causing pressure necrosis are common complications around the Cardia. Micro-Tech offers a special design that perfectly fits this difficult anatomic area and ensures that the selected stent remains in place.

- Unique umbrella design effectively preventing the reflux of gastric substance through fistula and reducing the irritations to gastric wall
- Made of single Nitinol wire with the “thermal memory effect” allowing the stent to expand to its preset shape after released
- Mesh structure and atraumatic ends to reduce irritations to the patient
- Extraction threads for stent repositioning and/or removal
- Radiopaque marks for easy orientation and exact implantation under X-ray
- Custom-made products available

Specification

IOC*	EOC*	Body Dia. (mm)	Flange Dia. (mm)	Length (mm)	Covering (mm)
Stents with partial covering					
ST01-982.16.090	ST01-108.16.090	16	22	90	75
ST01-982.18.100	ST01-108.18.100	18	24	100	85
ST01-982.20.110	ST01-108.20.110	20	26	110	95
ST01-982.22.120	ST01-108.22.120	22	28	120	105
ST01-982.24.130	ST01-108.24.130	24	30	130	115
Stents with end-to-end covering
